

# YOUR HEATING SOLUTION!

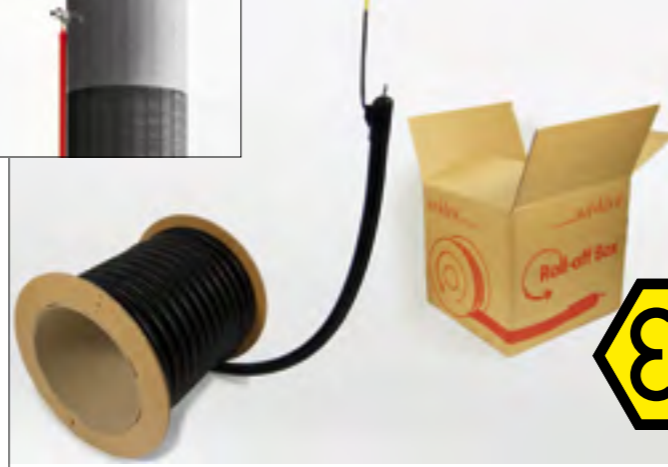

T<sub>max</sub> = 250 °C

Heated Lines and Heated Wall Bushings for the engine emissions measurement on test beds and vehicles

T<sub>max</sub> = 200 °C

Heated Lines for the process analysis and environmental measurement (emission, imission). **Atex Heated Lines** for zones 1/2 (gas) and 21/22 (dust) with EC-type examination certificate

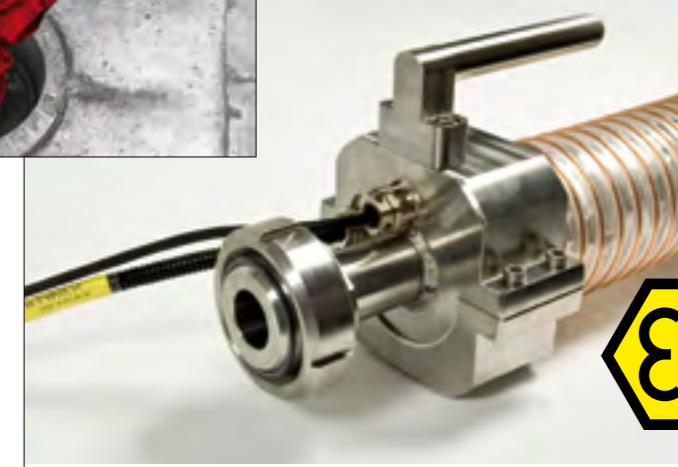

T<sub>max</sub> = 200 °C

Heated Hoses for the hot-melt glueing technology und glueing robots

T<sub>max</sub> = 200 °C

Heated Hoses for filling and dosing systems, transport and discharging technology **ATEX Heated Hoses** for zones 1/2 (gas) and 21/22 (dust) with EC-type examination certificate

T<sub>max</sub> = 60 °C

Heated Hoses, Silicone Heaters and Heating Foils for medical applications

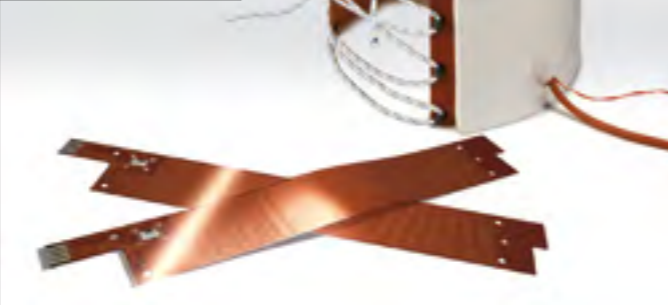

T<sub>max</sub> = 200 °C

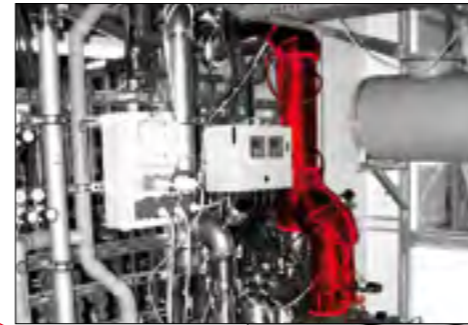

Silicone Heaters and Heating Foils for rail applications

T<sub>max</sub> = 200 °C

Silicone Heaters and Heating Foils for communication installations, electronic equipment and machines

T<sub>max</sub> = 900 °C

Heating Jackets, Industrial Heating Mantles and Heating Tapes for process engineering in chemical plants and vacuum installations

T<sub>max</sub> = 450 °C

PILZ® Laboratory Heating Mantles and Heating Tapes for research and development in laboratories and pilot plants

T<sub>max</sub> = 220 °C

Drum Heaters and Container Heaters for industrial bulk packaging

Our quality management system is certified to ISO 9001:2008.  
Winkler is a certified manufacturer in accordance with Directive 94/9/EC, Appendix VII (ATEX).

ISO 9001:2008

EC-Certificate RL 94/9/EG

EC-Type Examination Certificate

Tested to DIN 54837 and DIN 5510-2

Winkler GmbH is an independent, medium-sized company located in Heidelberg (Germany). For more than 30 years we have been developing and manufacturing a broad range of electric heating solutions for industry and laboratory applications.

We supply reliable and durable products made of high-quality materials.

We are the right partner for innovative and quick answers to your requirements. Customized solutions and flexible manufacturing are our particular strengths. Our experienced specialists will offer you sound advice and - together with you - develop the heating solution tailored to your application.

Winkler - Your heating solution!

Our product range

Company presentation

Heated lines

Heated wall bushings

Heated mixing vessels and manifold

Atex Heated lines

Heated hoses

ATEX Digital controller, limiter and power selector

Temperature control unit for wall mounting

Heating jackets

Silicone heaters & heating foils

Laboratory heaters

Drum and IBC heaters

Fass- und Containerheizer
